Yorkshire Loft Ladders, Quality You Can Trust!

These days most homeowners suffer from a lack of storage space. So many precious items that need to be kept - but where to store it all? That's where Yorkshire Loft Ladders come in.

The company, based locally, offers homeowners the opportunity to maximise their storage space with a loft ladder, 50 sq ft of boarding and a light all fully fitted in less than a day from just £277 + VAT. But it's not just the affordability of the package the company offers that makes Yorkshire Loft Ladders stand out as manager Warren Ingleson

explains. 'Our watchwords are Quality, Integrity and Value. Quality in the materials that we use for all our installations, and the fact that all our loft packages are fitted by time served tradesmen - so our customers are assured of the best job. Integrity in that we will turn up at the time we say, and make sure the house is spotless when we leave. And Value in that we offer our services at a price people can afford. Our business relies on referrals and we get a huge amount of our calls from people who have been referred to us by our existing customers. That simply wouldn't happen if we didn't

adhere to our overriding principles. At the end of the day the old adage that happy customers lead to more happy customers is true, and we work hard to make that happen for every installation we carry out!

So, if you want to make use of your loft space, however big or small, call Warren on 0800 612 8359 and he'll be happy to pop round and give you a no obligation quote so you too can make use of your loft!

Here's a great way to make more storage space...

Install a loft ladder and make more use of your loft!

Loft ladder, light & Switch plus 50 sq ft of flooring from as little as £277+ VAT which includes FREE fitting in less than a day.

Our customers choose us to fit their loft ladders, because we offer:

- A FREE home visit
- A FREE written quotation
- Fully guaranteed
- A large selection of ladders

The Mowbray Singers

The Mowbray Singers (the Sowerby-based chamber choir) together with Strings Attached (the Thirsk-based string orchestra) are presenting their autumn concert on Saturday 25th November 2023 at 7:30 pm in St Oswald's Church, Sowerby.

The programme will feature the ever-popular Gloria by Vivaldi and Schubert's sublime Mass in

G. In addition, our guest soloist, Megan Crozier, will perform Vivaldi's Oboe Concerto in B-flat and the string orchestra will play an arrangement of Ständchen (Serenade) – the exquisite 4th song from the Schubert's collection called Schwanengesang (swan song).

Family Christmas Quiz

Relax and chill out, these questions are for the young and not so young. You may not even agree with some of the answers, but the quiz is for the family to take part and enjoy.

- Who led the Parliament that banned Christmas?
- Who wrote "In the Bleak Midwinter"?
- A Christmas hit sung by Bing Crosby and David Bowie?
- What were the first words that the Herald Angels sang?
- On the seventh day of Christmas my true love sent to me?
- Father Christmas is also known as Saint?
- Who did Mummy kiss under the mistletoe?
- Where did Mary and Joseph travel from before reaching Bethlehem?
- Which Christmas song was broadcast from Gemini 6 in 1965?

- In what year was Queen Elizabeth II speech first televised?
- What date is St Stephen's day?
- What colours are the berries of the mistletoe plant?
- Who wrote "Auld Lang Syne"?
- "So this is Christmas" are the first words of which John Lennon song?
- Who was the first British monarch to broadcast a Christmas message to the nation?
- What river did George Washington cross on Christmas Day 1776?
- What do people in Norway hide to prevent wizards and witches from using them?
- Which King hunted baby Jesus?
- What animals does Santa Claus use for transport?
- Who makes the toys for Santa Claus?
- In which language is Santa Claus known as "Pere Noel"?
- How many reindeer pull Santa Claus' sledge?

- How many points are there on a snowflake?
- Which member of the Royal Family introduced the Christmas tree to the UK?
- What coin used to be hidden in a Christmas pudding?
- What spirit do you pour on to a Christmas pudding?
- What is a male turkey called in the UK?
- What is a female turkey called in the UK?
- Donner and Blitzen are two of Santa's?
- How many days are there to open on an Advent calendar?
- In which country were Christmas trees first used to decorate homes?
- During the First World War on which Christmas Day did the soldiers of Great Britain and Germany stop fighting and greet each other?
- There are two Christmas Islands and they are located in which oceans?

- What did Captain James Cook discover on Christmas Day 1777?
- Which famous scientist born on Christmas Day is buried in Westminster Abbey?
- The North Pole is said to be Santa's home. In which Ocean is the North Pole located?
- What British spacecraft was lost on Mars Christmas Day 2003?
- When does the winter solstice occur this year?
- In the pre Gregorian calendar what numbered month was December?
- What do people in Scotland call New Years Eve?

I wish you all A Merry Christmas and A Happy New Year

John Harris

WHEELCHAIR ACCESS. ALL AGES WELCOME. FREE ENTRY.

Run by the community, for the community.

The Yorkshire Sky

Two years ago I wrote an article titled "The Pollution of Space" and this month I find that I have to return to what is developing into an important topic in the world of satellite space today.

The figures that I use in this article are not plucked from out of the ether but are those published by The United Nations Office for Outer Space Affairs (UNOOSA), who state "there were 11,330 individual satellites orbiting the Earth at the end of June 2023; this represents a 37.94% increase since January 2022 when we did the last of these updates".

The majority of these satellites are placed in Low Earth Orbit (LEO) and if the above numbers are startling then sit down before reading the next sentence. There are proposals for an estimated further 2,500 satellites a year to be launched over the next decade and this could well be an underestimate.

You may think that we the human race will benefit from these LEO's and indeed we already do, an example being of using the internet via utilising one of UNOOSA's directives i.e. "Bringing the benefits of space to humanity"

However; we must seriously look at the control and long term implications as the life of each LEO terminates and, in some cases, drifting aimlessly in space before breaking up along with the other 128 million man-made pieces of debris presently orbiting the Earth.
